

# X-Ray pipe for industrial use

## Industrial X-ray tube

Our company (<https://www.bitstrong.co.jp>) is a sales company in Japan, and we have been selling good products from many domestic manufacturers. We are looking for the following products that can be distributed in Japan, and if you are willing to supply or export to Japan, please send a PDF of the product introduction and company introduction to my email [partner\\_logi@bitstrong.com](mailto:partner_logi@bitstrong.com). My (Men Hongtao) WeChat ID is med-ind1189, welcome to use WeChat to further communicate with WeChat (it is best to be a manufacturer/non-direct manufacturer who is willing to cultivate the Japanese market, sorry to not talk).

1) Ceramic wire tube for portable X-ray generator  
Anode grounding (1) ~ 250kV (5mA) (2) ~ 300kV (5mA)

2)  
Glass wire tube Neutral grounding for fixed X-ray generator (1) ~ 150kV (3~5mA irradiation angle 35~45°).  
(2)~200kV (3~5mA irradiation angle 360°)

1) ceramic X-ray tube  
Fit to a portable X-ray generator.  
Anode ground to ① ~250 kV (5 mA), ② ~300 kV (5 mA)

2) glass X-ray tube  
Fit to a stationary type X-ray generator.  
Neutral point grounding ① ~150kV (3-5mA irradiation angle 35-45 °)  
② ~200kV (3-5mA irradiation angle 360

For companies that manufacture in their own factories and are willing to cooperate, please provide the following information (you need to discuss with the person in charge of the Japanese with a complete set of complete

materials to promote, and you can't advance without complete information)

Trouble to put your

1. The company's official website and Chinese company name
2. Your **1688, made-in-China** and alibaba international sites and other major store URLs
3. Your email

is sent to [partner\\_logi@bitstrong.com](mailto:partner_logi@bitstrong.com) (also welcome to use WeChat (ID: **med-ind1189**) for further communication)

There are manufacturers of "various AC cables, various DC wires/wiring harnesses, flat/SATA cables, etc.", and we also customize them, but customers who are not familiar with our products need to start with standard products first. In Japan, we do e-commerce and retail for factories, companies, and business people. We are interested in retail sales for factory technicians and "small products that are relatively large/large in the market" (e.g., small coils of electronic wires, arranged wires, parallel wires, etc.).

Do you have any retailable products that are relatively stereotyped/conventional and have a certain amount of inventory on a daily basis (at least willing to produce some in transit when producing large quantities)? If so, please send a "list of retail products"

We focus on finding relatively standard products that we can sell on marketplaces. Customization is also done, but on the basis of such standard products.

## 日本bitstrong正在寻找的合作厂家及期待的合作方式

这个请参考并麻烦转给你们的负责人。我们真诚地期待对我们这样在日本的销售公司感兴趣并能主动用好我们的厂家（可直接微信med-ind1189）我们期望的是有标准产品（我们不定制），并打算对扩宽日本市场用力的厂家。有意愿支持我们以便让我们对其产品在日本扩大销售的中国厂家期望主动联系我们。我们能提供的是：1.在 ... 继续阅读
